FOREWORD

In this directory you will find a compilation of statistics regarding the public, college and university, special and institutional libraries in Missouri.

The directory is arranged alphabetically by towns or cities in which the libraries are located. The locations of branch outlets of libraries are cross-referenced to cities in which headquarters are located. The index in the back of the directory is arranged alphabetically by library name.

The directory attempts to describe each library in terms of its total program. It is hoped that this form of presentation will enable the user to gain an insight into the library in a way impossible through the use of scattered statistics.

Every effort has been made to assure that the statistical information in the directory is accurate as reported to the State Library by local libraries. No effort has been made to verify information submitted by local librarians. If in some instances certain statistical information does not appear, it is because it was not reported on the statistical form.

Following the alphabetical arrangement by town or city is a breakdown of library service in Missouri by county.
